WJ-NV200

Additional Business Intelligence Kit NVF20 is a license kit intended to improve the usefulness of Network Disk Recorder WJ-NV200.

* To use this product, it is necessary to register the license (Registration Key) for Additional Business Intelligence Kit into the NV200 in use.

Key Features

- **New statistical processing functions such as "People counting" and "Face matching / Age & Gender judgment"**
  - The number of detected human faces can be displayed on a statistical chart separated by age & gender for a single day or a specified time period.
  - Age distribution groups are displayed by separate colors
  - The statistical data can be saved as a CSV file on a SDHC/SD memory card or on a PC connected over a network.

    * CSV file: A file that can be edited using a spreadsheet software such as Microsoft® Office Excel®.

- **Enhancement of the face matching function**

	WJ-NV200	WJ-NV200 with WJ-NVF20
The maximum number of persons to be registered	16	64
The maximum number of face images that can be used for face matching	8	32
Speed of face matching	2 faces / s	4 faces / s*
Multi-Camera displays when face matching function is activated	Max.4	Max.16

* In case of face matching and statistical processing work simultaneously : "2 faces / s"

System Benefits
- Business intelligence added to the current (WJ-NV200) system with a small additional investment only
- Improved identification and video analysis thanks to the high picture quality of the Panasonic products

3-months Free Trial
- A 3-months trial of the "Additional Intelligence Kit" is available free of charge!
- The new functions can be experienced by the firmware update on WJ-NV200.

• All TV pictures are simulated.
