

Spill trays for small containers Model SC-P

- For the safe storage of small containers with hazardous substances
- With sturdy, removable plastic grid as an option
- Includes leak indicator in warning red as standard
- In 4 sizes which can be combined on a Euro pallet, with volumes from 20 to 80 litres
- Chemically resistant and fully corrosion proof
- Easy to clean
- Spill pallets and grids can be recycled and can be stacked inside each other for storage and transport.

NEW

from £ 46.50

Spill tray for small containers SC-P 20 with removable plastic grid incl. warning red leak indicator, Order no. 248-041-J9, £ 85.00

Spill tray for small containers SC-P 30 with 2-part removable plastic grid incl. warning red leak indicator, Order no. 248-042-J9, £ 113.00

Spill tray for small containers SC-P 40 without grid, for the direct storage of small containers, Order no. 248-039-J9, £ 67.00

Spill tray for small containers SC-P 40 with 2-part removable plastic grid incl. warning red leak indicator, Order no. 248-043-J9, £ 126.00

All sumps are fully compliant with HSE legislation and environmental pollution prevention guidelines

 Certified and approved. The highest levels of environmental protection and safety.
denios.shop/certificates

Spill tray for small containers SC-P 80 with 4-part removable plastic grid incl. warning red leak indicator, Order no. 248-044-J9, £ 163.00

The bright red leak indicator signals that there is fluid in the spill pallet. This means the grid does not have to be removed from the spill pallet to inspect it.

Ranging from sump pallets for small containers up to storage space for several 205 litre drums or IBCs, numerous versions for all kinds of application are available. All polyethylene sump pallets are produced using a rotational moulding process in DENIOS' own production facilities. Polyethylene sump pallets are vital for safely handling hazardous materials, due to their high resistance to acids, alkalis and oils.

Reasons to buy DENIOS Polyethylene sump pallets:

- Manufactured and tested to the highest European and British standards
- Environmentally friendly material
- Polyethylene sumps are abrasion resistant, impact and shock resistant
- Polyethylene is an ideal material due to its longevity and durability even on a tough day-to-day basis
- Polyethylene sump pallets are 100% corrosion-free and can be placed directly onto the floor
- DENIOS polyethylene sump pallets are manufactured in one piece, therefore there are no welds that can cause long-term security issues
- All DENIOS sump pallets are designed to pass a particularly heavy load test that imposes 4 times safe working load
- Polyethylene products are 100% recyclable

from £ 132.00

Model PolySafe Euro 60 - for a wide variety of sump pallet applications, also available with feet or castors

- Highly resistant to oils, acids, alkali and other aggressive substances
- Sturdy design with good impact and shock resistance even under high temperature variations
- Manufactured from environmentally friendly polyethylene (PE)
- Easy to clean
