Spacer connector, for the safe joining of several spillage decking elements

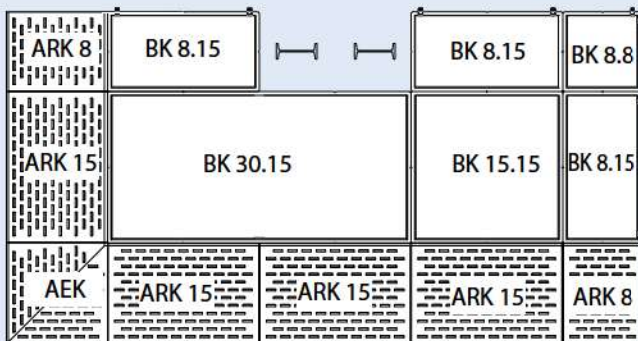

All sumps are fully compliant with HSE legislation and environmental pollution prevention guidelines

DENIOS warranty

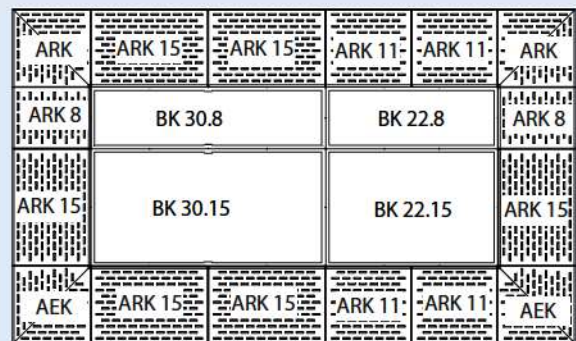

5 years

■ Examples of flexible combination options

The various dimensions of the floor elements allow you to lay them around posts and supports for example

Suitable ramps for each floor element make the complete storage area accessible from all sides

Combi access ramps

Take advantage of the new spillage decking elements which, if required, can be accessed from all sides. This makes more effective every day use of the spillage decking elements.

- For easy loading of the PE spillage decking elements model BK
- In environmentally-friendly polyethylene (PE)
- For wheel loads up to 150 kg
- Gradient only 7 degrees

i Choose from 4 different access ramps
