Anti-Vibration

Anti-vib-Viscolas® or Sorbothane® hand and wrist protection. See price list for complete list of products.

SX-01 Reversible oval shock pad with elastic; for palm area
25 Bundler's style anti-vib guard
GX-04 Grain leather fingerless glove style anti-vib

*Sorbothane® is a plastic polymer based on propylene oxide and possesses some unique properties: It distorts readily and has retarded recovery, absorbs up to 95% of impact energy with virtually no recoil and behaves like a fluid, being capable of accepting and absorbing multi-axial and torsional stress.

Bundler's Hand Guards

Quilted leather patch over palm. Ideal protection where the free use of fingers is required. Protects against cuts and burns from handling bundles, crates, paper, and twine. Adjustable Velcro® closure standard; snap buttons available.

BHG Regular (shown)
SR-BHG Steel staple reinforced
NP-BHG No patch

MOST POPULAR

Glove Protector

Split leather glove saver. Use over cotton, hot mill, or leather work gloves. Extra protection for index finger, palm, and thumb. Elastic back.

84-1 One finger (shown)
84-2 Two finger—index and second

Machine-Knitted Gloves

Insulating materials give protection against heat or cold. Knit wrist, reversible style. Can be worn under other gloves. Excellent dexterity. (Shown left to right)

W-100 Wool glove liner
K-100 Kevlar® for added abrasion resistance
C-100 Cotton, general purpose
K-100-PD Kevlar® with plastic dots for added grip
