

# SECURITY SYSTEM

- SECURITY
- AUTOMATION
- COMMUNICATION
- PEACE OF MIND

## CENTRAL FEATURES

- >> 8 Fully programmable zones with End-of-supervision
- >> 2 Programmable partitions
- >> 2 Programmable phone number for CMS reporting
- >> 2 intelligent zones to minimize false alarm
- >> Fully programme as: Entry/Exit, internal, instant, 24 hour, fire and silent zone
- >> 9 programmable user codes including Master Password
- >> 2 Arm Modes: Away & Home
- >> Zone sensitivity with 255 selectable levels
- >> Programmable Entry delay and Exit delay from 0~255

## WIRELESS APPLICATION

- >> Wireless operation with RF Module
- >> RF Receiver 2 channel come with 3 transmitters
- >> Wireless Operation: ARM & DISARM

## HOME AUTOMATION CONTROL

- >> 3 dedicated build-in security Automation Outputs
- >> 18 Options of Intelligent Automation Activation / Deactivation
- >> Remote Operation via phone control

## PROGRAMMING

- >> Local programming from LED keypads
- >> Non-volatile EEPROM memory retains programmed data even during total power loss

## REMOTE OPERATIONS

- >> User friendly speech menu
- >> User follows speech instruction for operation
- >> Secure remote communications using security codes
- >> Remote Operation via Touch / Mobile Phone uncludes:
  - Zone Status Check
  - Arm & Disarm
  - Zone bypass
  - Home automation control
  - Timer arming / Disarming
  - Auto Arming / Disarming
- >> Free from hassle of manual arm / disarm

## EVENT LOG

- >> 1000-event history log store in SD Card
- >> Two copies of history log file:
  - User readable log file. For owner to check alarm usage
  - Temper proof, encrypted log file. for auditing of alarm system.
- >> Real time clock

## DIGITAL COMMUNICATOR

- >> 22 programme phone numbers for CMS reporting
- >> Pulse or DTMF dialing
- >> Contact ID format reporting

## SPEECH DIALER

- >> 4 programmable phone numbers for voice messages reporting during Alarm / emergency

## KEYPADS

- >> Support up 4 keypads per system
- >> LED keypad displays status of each individual zone with indication of Trouble, Alarm and Bypass
- >> Keypad lockout to prevent intruder
- >> Programmable keypad lockout time and attempt

## ACCESS CODES

- >> 3 level Authorizations: Installer, Master & User
- >> 1 installer code, 1 master code and 8 programmable user codes of 4 digits

## POWER SPECIFICATIONS

- >> AC power loss detection
- >> Battery: 12 VDC / 7AH
- >> DC Battery charging
- >> Low battery voltage detection

## LIGHTNING SURGE PROTECTION

- >> 2 Level Protection: Onboard and PSTN Line-in
- >> Onboard and PSTN Line (MOV): withstanding current @ 250A
