

Storage and disposal tanks

- For collecting, storing, transporting and disposing of water-polluting substances

For indoor use (zone 2)

- Sturdy exterior, galvanised, manufactured from steel with a steel tube pallet which is accessible underneath
- Fuel tank interior manufactured from PE, is corrosion resistant and maintenance free
- 4 separate pipes for filling and emptying – 2" internal thread
- Optical displays show leakages and when fuel tank is full, fitted as standard
- Ideal for the storage of oils and diesel
