**DENSORB®**  
Emergency Spill Kit

**Emergency spill kit in transport trolley**

- Designed to quickly contain hazardous substances in the event of a leak
- If needed, can be locked with a conventional padlock
- Excellent mobility indoors and outdoors, even under difficult conditions

This emergency spill kit can be brought quickly to the scene of the leak. The range consists of socks for containment as well as mats and cushions for absorbing leaked fluid. Personal protection equipment for use at the site of the incident such as safety glasses and gloves complete the set.

**from £ 379.00**

**from £ 559.00**

The removable transport trolley trays are ideal for collecting dripping liquids or short-term collection of liquid-soaked absorption cloths.

- Contents:**
- 10 mats 37 x 40 cm
  - 3 socks 120 x 7.5 cm
  - 7 cushions 25 x 25 cm
  - 1 goggles with elastic strap
  - 1 pair protective gloves
  - 5 disposal bags

## Mobile emergency spill kit in DENSORB Caddy

- Optimum selection of absorbent materials for in-house leaks
- These organised, sturdy transport trolleys are chock full of high quality DENSORB absorbent materials
- A unique part of the contents are the perforated absorbent rolls, which allow just the right amount to be torn off. The granules also help to restore grip to the floor after the leaked fluid has been removed.
- Quick to use
- Functional chassis for easy, quick manoeuvrability
- Large, wide-opening door for efficient access to the absorbent materials

Seminar - Emergency leak training

See page 355

The ergonomic handle can be gripped safely even when wearing protective gloves and optimises manoeuvrability.

**Safety boxes**

- Ideal for use outdoors
- The safety boxes have a locking device for use with a padlock or seal, to protect the contents from unauthorised access.
- Thanks to the large opening, all important absorbent materials and utensils are easy to see and quick to reach
- The robust design guarantees secure protection of the absorbent materials from weather and damage
- In addition to the high quality DENSORB absorbent materials the SF 400 set also includes granules, which strengthen the bund and restore grip to the floor after the leaked fluid has been removed.
