

Introduction to DENSORB absorbent materials

- Powerful absorbents for the containment and absorption of liquids

Are you equipped for an oil or chemical accident? Can you safely prevent the pollution of the environment due to the release of water-polluting liquids? How do you react to dripping machinery in order to prevent a risk to safety at work?

Avoid unnecessary costs and trouble! protect yourself with DENSORB absorbent materials!

Even with smaller leaks there are risks involved; to the environment, to the workplace and to employees. Chemicals and oils which get into the sewage system, the ground or the ground water, cause costly contamination.

Legal regulations and environmental standards such as ISO14001 require responsible handling of hazardous liquids. The provision of absorbent materials to safely absorb escaped liquids is an important part of a responsible disaster recovery plan. We would be pleased to offer advice.

Advantages in summary

■ Best absorption capacity

DENSORB absorbent materials in polypropylene can safely absorb up to 16 times their own weight in oil, visibly faster than standard absorbent materials. The excellent capillary effect ensures even distribution of the absorbed fluid within the absorbent material, ensuring optimum use of the absorption capacity.

■ Highest quality

Thanks to high tear and abrasion resistance even when saturated, DENSORB absorbent materials are extremely long lasting and tough. The excellent adhesion between the surface of the fibres and the absorbed liquid prevents any liquid dripping out.

■ Careful preparation

Clean cut edges, consistent weight of the absorbent mats and easy separation thanks to accurate perforations ensure these products are easy to use.

■ Optimal safety

DENSORB absorbent materials pose no health hazards and contribute to a clean and safe workplace.

■ Save money when disposing of refuse

Thanks to their lower weight and high absorption capacity, DENSORB absorbent materials cost considerably less to dispose of than conventional absorbents.

Choosing the right product for you

Three application areas: Universal, oil and special

Use the right DENSORB absorbent material for your requirements. Choose between Universal, oil and special versions.

DENSORB Universal

- Safely and quickly absorbs oils, coolants, solvents, emulsions and water, as well as weak chemicals.

DENSORB Universal

DENSORB oil

Absorbs oil and repels water. Oil is absorbed without even a drop of water being taken up. For oils, petrol, diesel, solvents, petroleum (hydrocarbon-based liquids)

DENSORB oil

DENSORB special

- Ideal for absorbing acids, alkalis, and aggressive liquids.
- Should be used in emergencies involving unidentified liquids.
- The yellow warning colour highlights a potential hazard and allows the absorbed liquid to be clearly seen.

DENSORB special

Learn from the professionals!

- Putting knowledge into practice

DENIOS
ACADEMY

DENIOS Seminar "Emergency leak training"

Under professional guidance, learn the right things to do if an incident occurs and avoid the incalculable risks and associated costs. This seminar forms part of emergency planning in accordance with ISO 14001: 2015 Section 8.2.

Practical course content:

- The right way to use emergency equipment
- Contents of DENSORB emergency spill kits
- Inspection of potential incident sites

Theoretical course content:

- Planning emergency measures
- Simplified emergency action plan
- Areas of application for absorbent emergency spill kits

Date: On request
Location: In your company
Duration: approx. 1.5 hours
Course fee: on request

Note:

This compatibility list applies to all polypropylene sorbents. The compatibility of DENSORB sorbents was tested for a variety of chemicals. Due to uncontrollable factors we can not guarantee 100% absorbency. For your safety we recommend the implementation of compatibility and testing of your chemicals with DENSORB sorbents before buying. If you have questions or need free samples, please call free at: **0808 178 0723**

DENSORB absorbent materials are available for various applications and in many practical forms. Choose the absorbent material that suits you according to the desired absorption capacity, durability and use.

DENSORB absorbent materials finder:
denios.shop/uk-densorbfinder

Just 4 steps to find your right DENSORB product:

1. Select according to the type of **liquid** that has to be absorbed.
2. Select the **format** that suits you. You can use the application description as a guide for this.
3. Choose your **absorption capacity**. The absorption capacity depends on the material composition of the products.

☹ = High absorption capacity

☹☹ = Very high absorption capacity

☹☹☹ = Extremely high absorption capacity

4. Choose the desired durability. The greater the durability, the longer the product will last.

● = Strong durability

●● = Very strong durability

●●● = Extremely strong durability

Liquids	Format	Application	Absorption capacity	Durability	Product description	Page

DENSORB® ECONOMY

- Extremely effective absorbent mats in polypropylene, with an open fine fibre structure on both sides for quick absorption of leaked liquids
- For quick, easy use on leaks
- Ideal for cleaning, maintenance and repair work
- Best suited to use as an underlay for cleaning, repair and maintenance work
- The dark grey colour camouflages contamination, so the mat can remain in use for longer and still look good
- A special embossed surface ensures good stability and long life
- Very low risk of dripping thanks to strong adhesion between the surface of the fibres and the absorbed liquid
- Excellent absorption capacity and high tear resistance
- Suitable for universal use in production and workshops
- Ideal for absorbing drips from machinery or for wiping down dirty surfaces or parts

Mats Universal Economy

- The ideally sized mats are also perforated in the middle for economical use.

from £ 39.50

Extremely efficient Universal absorbent mats absorb escaped liquids very quickly and safely, universal use, in various sizes

Drum Mats Universal Economy

- Saves cleaning costs and increases safety
- Essential when using drum pumps and funnels
- Suitable for 205 litre drums
- Drum lid and floor surfaces remain clean
- Material thickness: Heavy
- Diameter: 560 mm
- Absorption capacity: 36 l/Pack

£ 84.50 / Pack

Order no. 173-865-J9

Pack = 25 Item(s)

Universal drum mats for absorbing drips when dispensing oils, solvents or weak chemicals

2 Material strengths:

Heavy duty: double layered material for large quantities of liquids

Light duty: single layered material for leaks and drips

Rolls Universal Economy

- Rolls are perforated longways and every 43 cm for easy separation.
- Rolls are ideal for soaking up leaks and spray
- Three different widths are available for numerous applications

BEST PRICE

from £ 59.00

Extremely efficient Universal absorbent mat rolls for quick use, ideal as an underlay for maintenance and repair work, universal use, width 38, 76 or 150 cm

DENSORB® EXTRA

- Highly absorbent mats in combination with a heavy duty, lint-free protective layer for long term use
- Reliably absorbs almost all liquids with a hydrophilic design
- The strong additional layer of spin-bonded fabric ensures high tear and abrasion resistance, even when fully saturated
- The protective layer allows targeted use:
 - first as an underlay for repair, cleaning and maintenance work on worktables, where a smooth, lint-free surface is needed (protective layer upwards) or
 - second, to protect flooring or for use with a leaky machine, where quick absorption of the dripping liquid is needed (protective layer downwards).
- Suitable for universal use in production and workshops

2 Material strengths:

- Heavy duty:** double layered material for large quantities of liquids
- Light duty:** single layered material for leaks and drips

Rolls Universal Extra

- Rolls are perforated in the middle and crossways for easy separation
- Extra wide rolls for covering large surface areas

DENSORB® PREMIUM

- **Effective absorbent mats with heavy duty, lint-free protective layers on both sides for excellent cleanliness, life, tear and abrasion resistance**
- **Careful processing ensures very high absorption capacity and performance**
- High mechanical resistance ensures long life and allows driving and walking over the surface
- Lint-free so ideal for sensitive surfaces, also suitable for wiping sharp-edged surfaces
- Ideal for protecting flooring or for use as underlay on workbenches and work surfaces
- No fibre residues on the bottom, even when the fleece is saturated
- Suitable for universal use in production and workshops
- The light colour easily shows up the fluid absorbed

2 Material strengths:

Heavy duty: double layered material for large quantities of liquids

Light duty: single layered material for leaks and drips

DENSORB® ECONOMY PLUS

- With a heavy duty, lint-free protective layer on the top and bottom
- High mechanical resistance ensures long life and allows driving and walking over the surface
- Improved tear and abrasion resistance, even when saturated

- Ideal for protecting flooring or for long term use as underlay on workbenches and work surfaces
- Also suitable for long term use for cleaning, maintenance and repair work
- Lint-free so ideal for sensitive applications and surfaces sensitive to dirt
- Also suitable for wiping rough and sharp-edged surfaces
- Both sides of the absorbent mat are strengthened with sturdy spun-bonded fabric to ensure high levels of tear and abrasion resistance
- No fibre residues on the bottom, even when the fleece is completely saturated
- Careful processing ensures very high absorption capacity and performance
- The dark grey colour camouflages contamination, so the mat can remain in use for longer and still look good

Mats Universal Economy PLUS

- Heavy duty mats for reliable absorption of leaked liquids
- For economical use, the mats are appropriately sized and also perforated in the middle

NEW

from £ 65.00

Especially heavy duty, lint-free Universal absorbent mats with high tear and abrasion resistance for demanding applications e.g. as a underlay on workbenches, 50 x 40 cm

TOP PRODUCT

from £ 61.00

Universal absorbent socks offer continuous protection against contamination from machinery

Absorbent materials with a high absorption capacity

- A special polypropylene filling ensures excellent absorption capacity
- Fluids which have been absorbed are reliably contained and are easily disposed of
- Reliably absorbs almost all liquids with a hydrophilic design
- Suitable for universal use in production and workshops
- Perfect for long term use anywhere where drips need to be collected for example when filling

Universal Absorbent Socks

- The design of our absorbent socks are an ideal shape for containing leaks
- An especially flexible shape with a stretchy outer ensures limitless possibilities for use, even in places which are difficult to reach

Ø x L [mm]	75 x 1200	75 x 1800	75 x 3000	75 x 5000

Cushions in trays, pack = 12 cushions with 6 trays

- Ideal for emergency containment, for example under leaking equipment or containers
- The tray also protects the floor and if needed collects larger quantities of fluid
- The absorbent mats prevent fluid spray and make disposal easier
- Dimensions L x W x H [mm]: 300 x 300 x 80
- Absorption capacity [l/unit]: 27

SET PRICE

£ 84.50 / Pack

Order no. 123-130-J9

EcoSorb Rolls and Mats

- Quickly absorbs all non-aggressive liquids
- Environmentally-friendly absorbent mats with an absorbent, recycled cellulose core
- Lint free and sturdy with reinforcement layer on both sides
- The absorbent cellulose makes it especially suited to absorbing aqueous solutions
- The grey colour hides dirt and ensures a longer life
- Tear resistant even when saturated
- Rolls are excellent for covering large surface areas
- Suitable for gangways and driveways
- Especially economical with a very high absorption capacity
- Rolls are perforated in the middle and crossways for easy separation
- The ideally sized mats are also perforated in the middle for economical use.

RECOMMENDED BY PROFESSIONALS

from £ 78.50

In the event of unexpected leaks the mats can also be used for soaking up escaped oil

EcoSorb rolls are ideally suited to protecting larger areas

Varioform - ready for any application: four formats in one

- Use as rolls, socks, mats and wipes

- A protective coating on both sides ensures the material is lint free and therefore also suitable for sensitive applications
- Supplied in a practical dispenser box for quick, efficient use anywhere

- Ideal for everyday use, for maintenance and repair work and for unexpected leaks
- The absorbent material is supplied folded on a Roll and is perforated in the middle and crossways - for every need
- High quality polypropylene fibres and a sturdy spun-bonded fabric on both sides guarantee high tear and abrasion resistance
- The compact dimensions mean the absorbent materials can be placed ready at any location: workbench, service vehicle, lorry, forklift etc

Multiple perforations along and across the material allow the correct size for any eventuality to be torn off easily

Varioform absorbent material three versions Universal, special and oil (from left) in practical dispensing cartons

Emergency sets in three designs:

- OIL** Absorbs oil and repels water
- UNIVERSAL** Universally applicable, absorbs oil, water & other chemicals
- SPECIAL** For acids, alkalis and chemicals

Application - DENSORB	Oil	Universal	Special
External dimensions L x W [mm]	15000 x 480	15000 x 480	15000 x 480

Order number	181-147-J9	181-146-J9	181-148-J9
Price / Item(s)	£ 52.00	£ 52.00	£ 68.00

DENSORB absorbent materials are available for various applications and in many practical forms. Choose the absorbent material that suits you according to the desired absorption capacity, durability and use.

DENSORB absorbent materials finder:
denios.shop/uk-densorbfinder

Just 4 steps to find your right DENSORB product:

1. Select according to the type of **liquid** that has to be absorbed.
2. Select the **format** that suits you. You can use the application description as a guide for this.
3. Choose your **absorption capacity**. The absorption capacity depends on the material composition of the products.

● = High absorption capacity

●● = Very high absorption capacity

●●● = Extremely high absorption capacity

4. Choose the desired durability. The greater the durability, the longer the product will last.

● = Strong durability

●● = Very strong durability

●●● = Extremely strong durability

DENSORB® ECONOMY

- Extremely effective absorbent mats in polypropylene, with an open fine fibre structure on both sides for quick absorption of leaked liquids
- For quick, easy use on leaks
- Ideally suited to removing oil or fuel spills from the surface of water
- Hydrophobic design ensures oil or hydrocarbon-based liquids are absorbed and water is repelled
- Tear resistant and can float on water even when saturated
- Ideally suited to outdoor use, even in rain, thanks to water-repellent properties
- Ideal to lay under machinery or for wiping down dirty surfaces or parts
- The white colour helps identification of saturation level

Mats Oil Economy

Practical down to the last detail: Absorbent mats (500 x 400 mm) are perforated in the middle. This enables you to easily tear off the amount required and use only as much of the material as you need.

Extremely efficient Oil absorbent mats absorb escaped liquids very quickly and safely, also for use on water, in various sizes

from £ 53.00

DENSORB® EXTRA

Highly absorbent mats in combination with a heavy duty, lint-free protective layer for long term use

- The strong additional layer of spin-bonded fabric ensures high tear and abrasion resistance, even when fully saturated
- The protective layer allows targeted use:
 - first as an underlay for repair, cleaning and maintenance work or on worktables, where a smooth, lint-free surface is needed (protective layer upwards)
 - second, to protect flooring or for use with a leaky machine, where quick absorption of the dripping liquid is needed (protective layer downwards)
- Hydrophobic design ensures oil or hydrocarbon-based liquids are absorbed and water is repelled
- Ideally suited to outdoor use, even in rain, thanks to water-repellent properties
- Tear resistant and can float on water even when saturated

- The lint-free protective layer allows even rough or sharp-edged surfaces to be wiped

2 Material strengths:

Heavy duty: double layered material for large quantities of liquids

Light duty: single layered material for leaks and drips

DENSORB® PREMIUM

Effective absorbent mats with heavy duty, lint-free protective layers on both sides for excellent cleanliness, life, tear and abrasion resistance

- Hydrophobic design ensures oil or hydrocarbon-based liquids are absorbed and water is repelled
- Lint-free so ideal for sensitive surfaces, also suitable for wiping sharp-edged surfaces
- High mechanical resistance ensures long life and allows driving and walking over the surface
- Ideal for protecting flooring or for use as underlay on workbenches and work surfaces
- No fibre residues on the bottom, even when the fleece is completely saturated
- Very low risk of dripping thanks to strong adhesion between the surface of the fibres and the absorbed liquid

- Ideally suited to outdoor use, even in rain, thanks to water-repellent properties
- Tear resistant and can float on water even when saturated

2 Material strengths:

Heavy duty: double layered material for large quantities of liquids

Light duty: single layered material for leaks and drips

Socks for the restriction of oil spillages and absorption of oil

from £ 60.50

Absorbent materials with a high absorption capacity

- A special polypropylene filling ensures excellent absorption capacity
- Fluids which have been absorbed are reliably contained and are easily disposed of
- Ideally suited to use outdoors, even in rain thanks to water-repellent design
- Hydrophobic design ensures oil or hydrocarbon-based liquids are absorbed and water is repelled
- Can float on water even when saturated
- Reliable absorption of engine oil, diesel, heating oil, cutting oil, vegetable oil, oil-based solvents etc and more Perfect for long term use anywhere where drips need to be collected for example under leaky machinery or when dispensing

Oil Absorbent Socks

- The design of our absorbent socks are an ideal shape for containing leaks
- An especially flexible shape with a stretchy outer ensures limitless possibilities for use, even in places which are difficult to reach

Ø x L [mm]	75 x 1200	75 x 1800	75 x 3000
Pack contents	20 Item(s)	12 Item(s)	4 Item(s)

Order number	123-132-J9	123-133-J9
Price / Pack	£ 113.00	£ 142.00

Oil Absorbent Cushions

- For collecting dripping fluids under pipes, valves, hydraulic lines, flanges, connections and drum taps
- Ideal for long term use, for example when dispensing
- An especially flexible shape ensures many possibilities for use, even in places which are difficult to reach.

Cushions for collecting dripping oil from machinery

Long life outdoor mats

- Developed for outdoors, water-repellent and UV-stable
- Ideal for long term use
- Reliable absorption of engine oil, diesel, heating oil, cutting oil, vegetable oil, oil-based solvents etc and more
- Very strong protective layers: top black, bottom white
- Roll width is suitable for railway lines
- Hydrophobic design ensures oil or hydrocarbon-based liquids are absorbed and water is repelled
- Very low risk of dripping thanks to strong adhesion between the surface of the fibres and the absorbed liquid
- Careful processing ensures very high absorption capacity and performance

Can be used to protect the ground: outdoor Mats absorb oil but not water

Use for repair and maintenance work: the ground will remain clean and protected

Design	Narrow	Wide

Absorbent Oil Barriers

- For quick containment and removal of oil and fuel spills from the surface of water
- Suitable for ponds, lakes, rivers and harbours etc
- The especially stable design prevents damage when retrieving the barriers

DENSORB Oil barriers are water repellent and float on the surface of standing and slow flowing water. They even float when fully saturated.

- Hydrophobic design ensures oil or hydrocarbon-based liquids are absorbed and water is repelled
- Reliable absorption of engine oil, diesel, heating oil, cutting oil, vegetable oil, oil-based solvents etc and more
- Very low risk of dripping thanks to strong adhesion between the surface of the fibres and the absorbed liquid
- The colour helps identification of saturation level
- Sound design with strong netting and robust inner sock, filled with highly absorbent polypropylene fleece
- With retrieval rope and simple-to-use carabiners and eyes to connect barriers together

DENSORB oil barriers (here: 6 M sections) for containing and absorbing oil spills on water

Practical spring clips allow the individual segments to be quickly overlapped and connected to create an oil containment barrier of the required length

Ecoline Oil Barrier

■ For effective containment of spills on open water

- Flexible and reusable
- Any number of barriers can be combined
- Suitable for slow flowing water, lakes, harbours and protected coastal areas
- Warning colour for good visibility even in bad weather conditions
- Integral, easy to use quick coupling to connect barrier system components, distributions pieces and end pieces
- Liquid-tight, welded special material with internal floats
- Submerged guards with ballast chains prevent washout

Many Ecoline oil barriers can be connected quickly to each other to protect large areas

Accessories: End piece

Accessories: distribution piece

Oil barrier combination.

- Combination of oil barriers with an absorption action and reusable plastic submerged guards. The submerged guard acts as a barrier, directing the liquid floating on the water to the oil barrier.
- Any number of barriers can be combined
- Suitable for slow flowing water, lakes, harbours and protected coastal areas
- Warning colour for good visibility even in bad weather conditions
- The combination is 12 M long, 30 cm high and has an 18 cm submerged depth
- With clasps for securing the barriers to the submerged guard and carabiners for combining several barriers
- Especially efficient polypropylene-based absorbent materials

Oil barrier combination,
Order no. 215-814-J9, £ 508.00

Oil Dice

- Ideal for long term use on bodies of water, including where there is a high flow or movement of water
- Suitable for all types of bodies of water, water treatment plants, harbour basins, oil separators

- Hydrophobic design ensures oil or hydrocarbon-based liquids are absorbed and water is repelled
- Very low risk of dripping thanks to strong adhesion between the surface of the fibres and the absorbed liquid
- Can float on water even when saturated
- Ideally suited to removing oil or fuel spills from the surface of water
- Oil binder model I, II SF
- The colour helps identification of saturation level
- Supplied in a 10 kg PE bag
- Absorption capacity 15litres/pack

from £ 122.00

Oil Skimmers

- For easy removal of oil, fuel or other similar substances from drains, gullies, pipes or tanks
- Highly absorbent material in robust nylon netting with integral retrieval rope
- Especially suited to areas which are difficult to access

- Reliable absorption of engine oil, diesel, heating oil, cutting oil, vegetable oil, oil-based solvents etc and more

DENSORB absorbent materials are available for various applications and in many practical forms. Choose the absorbent material that suits you according to the desired absorption capacity, durability and use.

DENSORB absorbent materials finder:
denios.shop/uk-densorbfinder

Just 4 steps to find your right DENSORB product:

1. Select according to the type of **liquid** that has to be absorbed.
2. Select the **format** that suits you. You can use the application description as a guide for this.
3. Choose your **absorption capacity**. The absorption capacity depends on the material composition of the products.

☞ = High absorption capacity

☞☞ = Very high absorption capacity

☞☞☞ = Extremely high absorption capacity

4. Choose the desired **durability**. The greater the durability, the longer the product will last.

● = Strong durability

●● = Very strong durability

●●● = Extremely strong durability

£ 284.00
 Order no. 163-776-J9

Special kit for chemical accidents

■ Specially for leaks involving aggressive liquids

- Contains absorbent material as well as chemical and acid absorbents
- Includes PPE for chemical leaks
- Ideal for mobile use anywhere where a leak may happen

Application - DENSORB	Special
Absorption capacity (l / pack)	42
External dimensions L x W x H (mm)	610 x 400 x 290
Weight (kg)	10
Order number	163-776-J9
Price / Pack	£ 284.00
ACCESSORIES	
Order number Refill kit	200-211-J9
Price / Pack	£ 236.00

ACCESSORIES

DENSORB®
Emergency Spill Kit

"DENSORB Emergency Spill Kit" sign in weather resistant plastic, 400 x 400 mm, Order no. 259-813-J9, £ 20.00

DENSORB® ECONOMY

- Reliably absorb all liquids with a hydrophilic design
- The first choice for leaks of aggressive acids, alkalis, solvents and unknown chemicals
- The yellow warning colour highlights a potential hazard and allows the absorbed liquid to be clearly seen
- The chemical-resistant material does not disintegrate and does not cause a hazardous reaction when in contact with corrosive liquids (see resistance list)
- For quick, easy use on leaks
- Best suited to use as an underlay for cleaning, repair and maintenance work
- Ideal for use in the laboratory, to lay under machinery or for wiping down dirty surfaces or containers

Mats Special Economy

- The ideally sized mats are perforated in the middle for economical use:

from £ 77.50

Mats (400 x 500 mm) are perforated in the middle, so that the required amount can be torn off easily in the case of small leaks

Extremely efficient Chemical absorbent mats absorb escaped liquids very quickly and safely, the warning colour indicates a potential hazard, in various sizes

i Special prices for bulk purchases and other pack sizes available on request: 01952 700 572

- A special embossed surface guarantees good stability and long life
- Very low risk of dripping thanks to strong adhesion between the surface of the fibres and the absorbed liquid
- The ideally sized mats are perforated in the middle for economical use

2 Material strengths:
Heavy duty: double layered material for large quantities of liquids

Light duty: single layered material for leaks and drips

Rolls Special Economy

- Rolls are excellent for covering large surface areas
- Rolls are perforated in the middle and crossways for easy separation

BEST PRICE
from £ 64.00

Extremely efficient Chemical absorbent mat rolls for simple use, ideal as an underlay when dispensing, for covering a large surface area, width 38 or 76 cm

Stands for absorbent rolls

DENSORB[®] ECONOMY PLUS

- Effective absorbent mats with heavy duty, lint-free protective layers on both sides for excellent cleanliness, life, tear and abrasion resistance
- Specially designed for absorbing aggressive acids, alkalis, solvents and unknown chemicals
- The yellow warning colour highlights a potential hazard and allows the absorbed liquid to be clearly seen
- The chemical-resistant material does not disintegrate and does not cause a hazardous reaction when in contact with corrosive liquids (see resistance list)

- Ideal for use in the laboratory, to protect flooring or for use as an underlay for worktables
- High mechanical resistance ensures long life and allows driving and walking over the surface
- Lint-free so ideal for sensitive applications and dirt-sensitive areas, also suitable for wiping rough and sharp-edged surfaces
- Very low risk of dripping thanks to strong adhesion between the surface of the fibres and the absorbed liquid
- No fibre residues on the bottom, even when the fleece is completely saturated
- Tear resistant even when saturated

Mats Special Economy PLUS

- For economical use, the mats are appropriately sized and also perforated in the middle
- Heavy duty mats for reliable absorption of leaked chemicals, e.g. in laboratories

Stands for absorbent rolls

DENSORB® EXTRA

- Highly absorbent mats in combination with a heavy duty, lint-free protective layer for long term use
- Suitable for areas where aggressive chemicals are stored or handled

- The strong additional layer of spin-bonded fabric ensures high tear and abrasion resistance, even when fully saturated
- The protective layer allows targeted use:
 - first as an underlay for repair, cleaning and maintenance work on worktables, where a smooth, lint-free surface is needed (protective layer upwards)
 - second, to protect flooring or for use with a leaky machine, where quick absorption of the dripping liquid is needed (protective layer downwards)
- Specially designed for absorbing aggressive acids, alkalis, solvents and unknown chemicals
- The chemical-resistant absorbent mat does not disintegrate and does not cause a hazardous reaction when in contact with corrosive liquids (see resistance list)
- Universal use in laboratories, production and workshops
- Suitable for areas where aggressive chemicals are stored or handled

2 Material strengths:

Heavy duty: double layered material for large quantities of liquids

Light duty: single layered material for leaks and drips

Absorbent materials with a high absorption capacity

- A special polypropylene filling ensures excellent absorption capacity
- Fluids which have been absorbed are reliably contained and are easily disposed of
- The first choice for leaks, when the type of leaked fluid is not known
- Chemically inert, suitable for absorbing aggressive chemicals
- Perfect for long term use anywhere where drips need to be collected, for example under leaky machinery or when dispensing
- Reliably absorbs all liquids with a hydrophilic design

Special Absorbent Socks

- The design of our absorbent socks are an ideal shape for containing leaks
- An especially flexible shape with a stretchy outer ensures limitless possibilities for use, even in places which are difficult to reach

from £ 94.00

Special absorbent socks for restricting hazardous substances in the event of an accident and special mats for absorbing liquids

Roll stands and wall brackets

Practical wall mounted Roll, can also be used as a stand, including cutting edge, dimensions W x D x H (mm): 500 x 430 x 360

£ 43.50

Order no. 116-579-J9

Mobile roll stand, incl. waste sack holder and cutting edge, dimensions W x D x H (mm): 490 x 720 x 1070

£ 72.00

Order no. 116-578-J9

Roll stand with cutting edge, dimensions W x D x H (mm): 440 x 385 x 880

£ 53.00

Order no. 116-637-J9

Pull-out roll stand for rolls with a width of 76 to 100 cm, dimensions W x D x H (mm): 1100 x 300 x 1060

NEW

£ 107.00

Order no. 256-716-J9

■ **For rolls up to 38 cm wide**

- Ergonomic handle and easy to manoeuvre solid rubber wheels for safe, easy handling
- Quick, simple roll insertion
- Corrosion proof and easy to clean
- Sturdy, robust housing in environmentally-friendly polyethylene - highly resistant to oils, acids, alkalis and other aggressive substances

ACCESSORIES

Optional accessories: Tray for safety gloves and glasses for example, dimensions W x D x H (mm): 390 x 180 x 85, Order no. 250-263-J9, £ 18.10

Mobile dispenser, dimensions W x D x H (mm): 600 x 470 x 1000, Order no. 251-113-J9, £ 265.00

■ **For rolls up to 80 cm wide**

- Sturdy Roll holder for industrial and workshop use
- Includes cutting edge Can be used either wall mounted or on a stand
- Dimensions W x D x H (mm): 880 x 460 x 630

Roll stands for rolls up to 80 cm wide as a stand unit, Order no. 136-487-J9, £ 113.00

Castor set suitable for Roll stands for 80 cm wide rolls, Order no. 136-489-J9, £ 22.50

Roll stands for rolls up to 80 cm wide for wall mounting.

Supply trolleys for DENSORB absorbent materials

- DENSORB absorbent materials are always ready wherever they are needed - clean, quick and efficient
- Large doors offer easy, practical access to the absorbent materials, whether rolls or handy mats
- Magnetic closures ensure easy opening and keep the doors tightly closed and the contents clean
- Sturdy design in long lasting, robust plastic - highly resistant and corrosion free
- You choose: stationary or mobile

- Practical DENSORB stations have compact dimensions to house regularly used absorbent materials in an easy to reach location, helping to keep your workshop clean

Emergency sets in three designs:

OIL	Absorbs oil and repels water
UNIVERSAL	Universally applicable, absorbs oil, water & other chemicals
SPECIAL	For acids, alkalis and chemicals

- The easily manoeuvrable DENSORB Caddy is an essential aid when you need to get absorbent materials to different locations fast
