

# HARDCAP AEROLITE®

## THE LIGHTEST FULL SHELL BUMPCAP

Designed by JSP's in-house Research and Development team, the HardCap Aerolite® weighs less than 135g without compromising on performance.

STANDARD	EN812	✓
	Impact resistance	12 Joules
PERFORMANCE	Lightweight	<135g
	Anti-bacterial coating	Polygiene®

### ✓ FULL HDPE SHELL

Underneath the sleek textile cover is a tough HDPE shell and a lightweight EPP impact liner, carefully designed to allow for flexibility and comfort for the wearer.

### ✓ REFLECTIVE AREAS

Large reflective areas on the side panels of the cover and reflective piping around the peak provide extra visibility and improved safety in low-light conditions.

### ✓ FIT & COMFORT

There is replaceable padding to provide extra comfort and a better fit. The comfort pad and the sweatband are moisture wicking to move sweat away from the skin.

### ✓ PEAK OPTIONS

Available in black or blue as standard and with either a 50mm or 25mm peak. The longer peak provides better shade and the shorter peak provides improved vision when looking upward.

### ✓ 'AIR FLOW' TECHNOLOGY

The cover has large open weave panels allowing the easy transfer of cool air. This substantially reduces heat build-up and discomfort for the wearer, especially when worn over long periods.

### ✓ ANTI-BACTERIAL

The cover is removable and machine washable. The sweatband and padding are treated with Polygiene®, which reduces skin irritations, odours and wash cycles, and prolongs the lifetime of the fabrics.

# HARDCAP™ A1+ THE FIRST A1 BUMPCAP

The sleek, low profile makes the HardCap™ A1+ almost impossible to distinguish from a standard baseball cap.

### ✓ ALL ROUND PROTECTION

The protective liner protects against impacts from the sides as well as from above. It is also removable so the outer cap is fully washable for hygiene and extended life cycle.

### ✓ VENTILATION

Extra holes in the liner and two mesh panels on the outer give added ventilation for coolness and comfort.

### ✓ FIT & COMFORT

Unique one-handed angled adjuster to quickly fit tightly and comfortably to most head sizes and shapes. Fits head sizes from 53 to 64cm.

### ✓ REFLECTIVE PIPING

All colour-ways have subtle reflective piping for added visibility safety.

### ✓ HI-VISIBILITY

Available in hi-visibility orange and yellow. Great for low light environments.

### ✓ PEAK OPTIONS

Available in three peak sizes, micro (2.5cm), short (5cm) and long (7cm).
