The logo consists of the letters 'AS' in a bold, white, sans-serif font, centered within a red diamond shape. The diamond is composed of four smaller diamonds meeting at the center.

AS

A large, black Snap-on toolbox with multiple drawers and a top cabinet. The drawers have silver handles and the Snap-on logo is visible on the top of the drawers. The toolbox is set against a dark background with a subtle light gradient.

"When you're working on a job, you visualize the tool you need for a specific fastener. And right there it is, right when you need it, in your Snap-on toolbox."

Aviation Dog Boxes

Aviation technicians told us what they need, and we listened. This line of rolling tool boxes have convenient hand-tow handles. Available in three sizes, these dog

Interchangeable Handles

- Small and medium dog boxes feature an interchangeable hard steel wagon-style handle that keeps the box from wandering or nipping at your heels, or a soft nylon leash so you can choose the hard-tow handle that best fits your needs
- Handles can be quickly installed or changed with the wire lock pin Deluxe Wagon-Style Handle
- The large dog boxes feature a deluxe hard steel wagon-style handle that is easy to steer and easy to control
- The swivel feature allows for a comfortable pulling position while the spring-loaded action keeps the handle in the upright position, when the box is at rest

boxes let you load up the tools you need for a specific task and comfortably wheel them across the tarmac, from hangar to hangar, through the terminal or on a plane

Hinged And Foldable Top

- Both large dog boxes feature a front lid that folds up and under the top lid to create a convenient, flat work surface, while still allowing access to the drawers
- When fully closed, the hinged cover lets you keep the drawers and box securely locked

Removable Chassis

- Each dog box can be removed from the rolling chassis with convenient lifting handles to allow for stationary storage on a bench or roll cab for easy accessibility

Rubber Wheels

- All models feature rubber caster wheels for a smooth and quiet ride along with maximum shock absorption
- Wheels can also be locked for safety

Roll Cart Top Mats

High durability rubber mats are designed to fit over the lid on most 30"-48" and 60" Snap-on® Roll Carts.

- Molded manufacturing process provides a raised edge around the entire top surface and under surface to help keep parts and spills contained
- Mats have edge underneath to position them properly on the lid
- Two wide peel-off strips expose application adhesive (UM® # 0000) to keep the mat in place when raising and lowering the lid
- Made from SBR rubber—a strong synthetic rubber commonly used in truck tires, then primer sprayed, to give it strong working properties
