

SO THAT NO DIRT REMAINS IN THE CARPET.

Carpets in offices, hotels and schools are subject to heavy traffic every day. This is where our carpet cleaners have proven invaluable. They are robust, powerful, versatile and suitable for deep and intermediate cleaning of carpets and removing stains on textile surfaces. Our carpet cleaners are also ideal for deep cleaning upholstery and car seats. And, with the right accessories, they can even be used to clean tiles.

1 Quick-drying
The powerful suction turbine of Kärcher Puzzi machines leaves carpets virtually touch-dry in minutes. Carpets dry up to 63% faster than with comparable products and can be walked on in a very short time.

2 The spray extraction principle
With the spray extraction method, the water and cleaning agent are sprayed deep into the carpet while simultaneously vacuuming the dirty solution back again. Dirt is dissolved and removed in a single pass. Due to the low residual moisture, carpets are dry in next to no time.

3 Thoroughly clean
The brush mechanism of carpet cleaners with roller brush intensifies the cleaning power of the cleaning agent. This raises the carpet pile.

4 Twice as versatile
The BRC 45/45 C and BRC 40/22 C with sweeping mechanism are multifunctional all-rounders. They feature fibre-deep carpet cleaning with spray extraction, mechanical brush support and contra-rotating roller brushes for quiet operation and constant brush contact. The cleaning agent CarpetPro iCapsol D-RM 768 from Kärcher is recommended for the efficient cleaning of carpets as it greatly reduces the drying time.

5 Intermediate carpet cleaning made easy
Our BRS 43/500 C and the CarpetPro cleaner iCapsol D-RM 768 are an unbeatable team for intermediate carpet cleaning. They enable you to reach the dirt even deep into the carpet. The dirt is loosened from the fibres and encapsulated. The carpet is ready to walk on again in just 30 minutes. Then you simply vacuum up the encapsulated dirt in the next maintenance cleaning session.

6 Kärcher cleaning agents
The CarpetPro cleaner iCapsol D-RM 760 Powder OA is a spray extraction deep cleaner with encapsulation technology and odour eliminator. It permanently eliminates unpleasant odours. No need for time-consuming rinsing. CarpetPro Conditioner D-RM 763 removes residual dirt and surfactant residues from carpet floor coverings and textile surfaces. Reduces the need for rinsing. Refreshes fibres and colours.
