

NOTHING LESS THAN THE BEST FOR YOU

For optimal cleaning results, the system being used - consisting of machine and cleaning agent - must work perfectly. We recognised this very early on and have consistently relied on our own research and development. We develop our cleaning and care agents specifically for use with Kärcher cleaning machines. This means that you can get the most out of your system's performance capabilities. And you can be sure that you are always getting the maximum possible effectiveness, efficiency and reliability.

Product description	Application
HIGH PRESSURE CLEANING AGENTS - VEHICLE DRYING & CARE	
 <p>PressurePro Active Cleaner, alkaline D-RM 81 Efficiently and gently acting high-pressure cleaning concentrate for heavy oil, grease and mineral soiling.
