

# MEGZOL M.G.O Long Life Coolant

## Radiator Coolant, Anti-Freeze and Corrosion Inhibitor

### Product Data Sheet

#### PRODUCT DESCRIPTION

MEGZOL M.G.O Long Life Coolant is designed with unique cooling technology to provide excellent corrosion protection for all engine and cooling system metals, including aluminum, steel, iron, copper and alloys. MEGZOL M.G.O Long Life Coolant meets or exceeds the requirements of various manufacturers and industry standards which outperforms conventional coolants.

#### BENEFITS

- Ultimate protection against corrosion
- Extended service life
- Reduced maintenance costs

#### FEATURES

MEGZOL M.G.O Long Life Coolant is multipurpose coolant with extreme protection against rust and corrosion recommended for all kinds of vehicles.

#### APPLICATIONS

- Passenger cars with gasoline and diesel engines
- Light duty vehicles with gasoline and diesel engines
- Heavy duty vehicles with diesel engines
- Suitable Replacement for green and blue colored coolants

#### Service Intervals

-240,000 KM or 5 years

Name	Method	Units	MEGZOL M.G.O Coolant
Appearance	Visual	-	Clear & Bright
Colour	Visual	-	Crimson
Boiling Point of Engine Coolants	ASTM D1120	°C	210
Pour Point	ASTM D97	°C	-40 (with 1:1 ratio) -22 (with 1:2 ratio) -17 (with 1:3 ratio)
Specific Gravity @ 15°C	ASTM D4052	g/ml	1.119

This information was prepared in good faith from the best information available at the time of issue. While the values and characteristics are considered representative, some variation, not affecting performance, can be expected. It is the responsibility of the user to ensure that the products are used in the applications for which they are intended.
